Basis and review

Synthetic recorded foreign presence: January 1 to November 25, 2025. All other dates from January 2, 2024 through December 30, 2026 are explicitly recorded as nonforeign; no foreign-presence assumption is used.

Evidence reference date: January 1, 2027 (synthetic). This ordinary-test result does not assess bona fide residence, special relief or a waiver.

Foreign tax home and broader FEIE eligibility are unverified. Eligible income and exclusion amounts are not calculated.
