Detailed evidence and provenance

Companion to standard-2025.pdf. The standard report is independently readable. Source identifiers below are synthetic review labels.

Full relevant source history

Source / classification	Original inclusive source dates
SYN-A01 / assumed foreign	January 1, 2015 to December 31, 2025
SYN-U01 / recorded U.S.	May 31 to June 29, 2025
SYN-U02 / recorded U.S.	December 13, 2025 to January 13, 2026

All three supplied source records are retained with original endpoints. SYN-A01 is a bounded synthetic declaration, not independent evidence of each full foreign day. Explicit exceptions override it.
